

March 15, 2020 webinar - Coping with COVID-19 Using Online Instruction

This is a list of comments added to the webinar's chat box by attendees.

Note: These are not specific recommendations of TESL Ontario or Tutela, but rather ideas shared by the attendees at this webinar.

- There are some great apps to help you focus when working at home, or students can use to help them study online. I use Focus Timer and Focus Keeper and recommend them to my students.
- Respondus Lockdown if you have an LMS - <https://web.respondus.com/he/lockdownbrowser/>
- Zoom announced free for K-12 with strings.
- Kahoot now allows images in the choices.
- YouTube does captioning, which is great too.
- One Note is free and you can share information through OneNote.
- <https://www.twiddla.com> is a free whiteboard - no sign in required.
- Breaking news English is a great site for ESL students. Lots of great activities.
- Sharepoint. It is great because student and teacher can interact together with text at the same time. They write sentences as I correct them on a document I create. It's a Microsoft product.
- Ludwig.guru - For EAP students who are working on more complex EAP online assignments and courses.
- <https://discordapp.com/>
- <https://www.loom.com/>
- <https://www.twiddla.com/>
- <https://info.flipgrid.com/>
- <https://moodlecloud.com/>

- <https://www.sakailms.org/>
- <https://whiteboard.fi/>
- Create a private group on Facebook.
- Students can create a poster on MY family and present it to you online. Vimeo is free and students can upload them there to share with their classmates.
