

Accredited CTESOL Training Programs (for CTESOL Certification)

A TESL Ontario accredited CTESOL training program comprises at least 90-100 instructional hours in theory and methodology of TESL; at least 10 hours of observation; and at least 10 hours of supervised practice teaching (a total of 120 hours).

The training delivery modes are in-person, online, and blended. However, no more than half of the required practicum hours (i.e., 5 hours of observation and 5 hours of supervised practice teaching) can be completed online. All online observation and online supervised practice teaching (if any) must be conducted synchronously.

CTESOL program graduates are eligible to apply for the TESL Ontario CTESOL Certificate and Professional Designation provided that they meet the university degree and English language proficiency requirements of the TESL Ontario certification application.

For information about the accredited training providers' admission requirements, registration dates, start/end dates, weekly schedule, tuition fee, financial assistance, etc., you should contact them directly.
